EDUCATION

Jomo Kenyatta University of Agriculture and Technology   2019-2023

Degree in Business Information Technology

WORK EXPERIENCE

Full Stack and Mobile developer | Rocket Devs   **July 2023 - Recent**

- In this position, I played a key role in creating web APIs with JavaScript and Golang. I also worked on the development and enhancement of mobile apps using Jetpack Compose and React Native.. This opportunity provided me with extensive insights into both backend and frontend technologies.

- As part of my multifaceted role, I also served as a front-end and mid-web developer, proficiently utilizing technologies like React and GraphQL. This enabled me to craft engaging and responsive user interfaces, seamlessly connecting them with the backend to deliver an exceptional user experience.

Overall, my contributions to the team were marked by my versatile skill set and commitment to excellence, allowing me to make significant impacts on the projects I worked on.

Full Stack Software Developer(contract) | Grubbys Africa April 2022 - June 2023

At this job (a startup), I held the position of a Software Engineer, where my primary responsibilities included developing and writing tests using Laravel and JavaScript.

- In this role, I meticulously analyzed complex problems and actively engaged with cross-functional teams to develop optimal solutions. This often involved collaborating with senior management to identify and implement new initiatives aimed at enhancing the overall quality and performance of our applications.

- My technical expertise in utilizing Laravel and JSON enabled me to create robust and reliable tests, ensuring the highest level of software quality and reliability. I took pride in my ability to methodically approach issues, resolve them efficiently, and ensure seamless communication within the team.

- Moreover, my close collaboration with senior management allowed us to identify innovative strategies and initiatives aimed at refining our applications, aligning them with industry best practices, and staying ahead of market trends.
